OBJECTIVE

To gain experience and exposure with a company or an institution that will offer me a consistent and positive atmosphere to learn new technology, develop my technical skills and implement these skills for the best of the company.

PERSONAL PROFILE

I have currently passed Bachelors' in Computing at Islington College, Kamalpokhari and I am very keen to work and learn more about programming and software development with your company on a real-time opportunity. As the company's requirements, I can assure you that I have the basic skills and knowledge for this post. I have been highly motivated to work as an intern or junior dev. with your company so that I can broaden my skills and knowledge further, with the help of utmost practical skills.
